How to Work from Home Using the VPN Client

1. Open the **VPN Client** and select **ISP to PSU** and click **Connect**.

2. This logon box will appear after you make the connection. Please enter your **PSU Access Account username and password**. Then click **OK**.

3. Open the **Remote Desktop tool** on your computer. Please enter the **IP Address of your office computer** into the first box **Computer**: then click **Connect**.

4. You should see the **login screen** for your office computer. Enter your **HHD username** ex: **slp281@hhdev.psu.edu** and password.
