The Penn State Center for Motor Control

The Penn State Action Club

Interactive Seminars in Motor Control and Coordination

Starting Time:  Fridays, 3:45 p.m.
Meeting Place:  127 Noll Conference Room

Speakers in the Spring 2013

January 11  Michael Wininger (University of Hartford)
February 8  David Ostry (McGill University)
February 22  John Scholz (University of Delaware)
March 15  Andrzej Przybyla (Penn State)
March 22  Melvyn Goodale (University of Western Ontario)
April 12  Matthew Tresch (Northwestern University)
April 26  Zheng Wang (Penn State)

The seminar will provide a forum for in-depth discussions of issues on motor control and coordination. It is interdisciplinary in nature, perspectives ranging from biomechanics, neurophysiology, motor control, psychology to philosophy. The sessions are aimed to be informal and highly interactive with no preset time limits. Speakers will have 10 minutes of uninterrupted presenting time. Thereafter, they may and should be interrupted whenever questions arise. After the meeting there will be a gathering in honor of the speaker. Graduate students are encouraged to attend and to participate.
