

PRE-MED AT ST. GEORGE'S UNIVERSITY

Grenada, West Indies

PennState

Travel to the Caribbean island of Grenada for a two-week program at the world-class St. George's University School of Medicine. Students will focus on applied allied health professions such as: medical school, veterinary school, physician's assistant programs ,and public health.

Designed for students in the College of Health and Human Development and Eberly College of Science, Kines 499 allows students to actively participate in lectures, laboratory, small group projects, and field trips all while being immersed in a diverse Grenadian culture.

Scheduled activities include:

- Trips to local markets
- Tour a nutmeg plantation
- Snorkeling
- Rain-forest hike/ waterfall visit
- Beach activities
- Dinner cruise

Experiential Learning All Penn State students will complete a service learning requirement at a chosen setting including (but not limited to) fitness centers, rehabilitation facilities, senior centers, community health and wellness programs, hospitals, rural parishes and local government that have a need for public health initiatives.
