

CURRICULUM VITAE

Christopher Engeland, Ph.D.

Professor (Tenured)

Department of Biobehavioral Health (BBH)
229 Biobehavioral Health Building
The Pennsylvania State University (PSU)
University Park, PA 16802

Lab website: <https://sites.psu.edu/stressandimmunity/>
Phone (w): (814) 865-4694
FAX: (814) 863-7525
Cell: (312) 731-6967
Email: cge2@psu.edu

Research Overview: Broadly, I am interested in how stress, age, gender, and hormones affect immunity, inflammation, and health; also, the feasibility of diverse biomarkers for predicting health outcomes.

Research i) Stress, inflammation, biological aging, cognitive aging, and dementia risk (human)

Interests: ii) Effects of stress, age, sex & hormones on inflammation and wound healing (human, animal)

iii) Inflammation and mental health (e.g., depression, bipolar) (human)

iv) Inflammatory biomarkers & stress: Predictors of preterm birth & cardiovascular risk (human)

v) Salivary diagnostics - Immunity and neuropathology (human)

ACADEMIC POSITIONS

Professor (Tenured)	Biobehavioral Health (PSU)	2023 - Present
Joint Faculty Member	Ross & Carol Nese College of Nursing (PSU)	2013 - Present
Adjunct Faculty Member	Penn State Neuroscience Institute (PSU)	2013 - Present
Affiliate Faculty Member	Child Maltreatment Solutions Network (PSU)	2024 - Present
Affiliate Faculty Member	Social Behavioral Neuroscience (PSU)	2019 - Present
Affiliate Faculty Member	Center of Geriatric Nursing Excellence (PSU)	2018 – Present
Affiliate Faculty Member	Center for Healthy Aging (PSU)	2016 - Present
Affiliate Faculty Member	Center for Wound Healing (UIC)	2008 - Present

Past Positions:

Associate Professor (Tenured)	Biobehavioral Health (PSU)	2017 - 2023
Assistant Professor	Biobehavioral Health (PSU)	2013 - 2017
Assistant Professor	Periodontics (UIC)	2008 - 2014
Assistant Professor (Joint)	Women, Child, Family Health Science (UIC)	2012 - 2013
Assistant Professor (Adjunct)	Neuroscience Program (UIC)	2009 - 2013
Research Assistant Professor	Periodontics (UIC)	2005 - 2008

ACADEMIC HISTORY

Post-Doctoral Fellow, *University of Illinois at Chicago (UIC)* 2003-2005, *The Ohio State University (OSU)* 2002-2003. Advisor: Phillip Marucha, Ph.D., D.M.D.

Doctor of Philosophy, Neuroscience (2002)

University of Western Ontario (UWO). Advisors: Klaus-Peter Ossenkopp Ph.D., Martin Kavaliers Ph.D.
Thesis: Factors which modulate sickness expression and tolerance development following bacterial infection in rodents

Master of Science, Specialization in Neuroscience (1997)

Carleton University - Ottawa, Ontario, Canada. Advisor: Verner Knott Ph.D.
Thesis: Nicotine and the mismatch negativity in Alzheimer's disease

Bachelor of Science, High Honours in Psychology (1994)

Carleton University - Ottawa, Ontario, Canada. Advisor: Shelley Parlow Ph.D.

Thesis: A subclassification of left-handers into consistent and inconsistent classes and an analysis of performance on a 2:1 tapping apparatus

ENGELAND, CG

ACTIVE RESEARCH GRANTS (Direct costs shown)

NIH 2 P01 AG003949 (Derby) 04/01/2022 – 03/31/2027 \$24,150,895
Einstein Aging Study - Renewal proposal for currently funded P01 (see Project & Core below)

1) P01 - Project Leader (Engeland, Graham-Engeland) \$2,536,683

Depression, inflammation, biological age, and cognitive function

This longitudinal study (5 annual data waves) will examine how depression, inflammation, and biological aging (telomere length, DNA methylation) interact to predict cognitive decline, mild cognitive impairment, and dementia (e.g., Alzheimer's disease) in 767 participants 60+ years of age in the Bronx, NY.

Role: Project Leader (Multiple), 25% effort

2) P01 - Core Leader (Engeland, Pavlovic) \$1,719,450

Biomarker Core

This core for the above P01 renewal oversees the following measures, analyses, and interpretation: plasma-based neurodegenerative biomarkers, blood autophagy, blood chemistry, genetics, and MRI.

Role: Core Leader (Multiple), 20% effort

NIH R01 HL153377-01 (Zilioli) 04/01/2021 – 03/31/2026 \$2,619,373

Stress, racism, and cardiovascular risk among urban African American adults: A multilevel, mixed methods approach (The Heart of Detroit Study)

Using a mixed methods approach, this study will identify the psychosocial stressors most salient to 500 middle-aged and older African Americans. We will model the daily psychological, behavioral and biological pathways through which stress can exacerbate cardiovascular disease (CVD) risk in this population.

Role: Co-I (PI at Penn State), 10-15% effort

NIH UF1 AG072619-01 (Gamaldo) 08/15/2021 – 07/31/2024 \$1,719,387

Psychosocial and neighborhood mechanisms and consequences of Black-White sleep disparities on cognition

This longitudinal study (6 biannual data waves; $n=320$) will model racial differences in the associations between sleep and cognitive functioning, while accounting for factors such as cumulative/life stress and inflammation. Risk for cognitive decline will be determined.

Role: Co-I, 15% effort

NIH NIA R03 AG081719-01 (Graham-Engeland) 04/01/2023 – 03/31/2025 \$100,000

The role of loneliness in cognitive decline and risk for dementia

This project will extend the ongoing Einstein Aging Study (EAS) P01 to examine how self-reported loneliness, via both retrospective report and ecological momentary assessment (EMA), relate to cognitive function and decline in older adults at cross-section and longitudinally.

Role: Co-I, 2.5% effort

NIH NIA R03 AG081565-01 (Harrington) 05/15/2023 – 11/30/2025 \$200,000

Prospective memory in everyday life: Lapses and decline in relation to inflammatory and neurodegenerative biomarkers in older adults

This project will extend the ongoing Einstein Aging Study (EAS) P01 to examine prospective memory lapses in association with biomarkers of inflammation and neurodegeneration, and the moderating role of gender.

Role: Consultant

RS-2024-00348012 (Song) 05/01/2024 – 05/01/2027 \$641,485

International Funds: \$120,000

Korean National Science Foundation

Global collaborative research on establishing a Korean older adult cohort

This project aims to develop a Korean older adult cohort with rich data around affect, pain, health behavior, cognitive performance, and health-risk factors, including inflammation.

ENGELAND, CG

Role: Co-I

The Geroscience and Dementia Prevention Consortium – Penn State (Paul) A scalable patient to petri dish (P2P) initiative for investigating Alzheimer’s Disease

This project aims to demonstrate the feasibility of building a “patient-to-petri dish” (P2P) pipeline to generate mixed tissue 3D organoids from Alzheimer’s and Alzheimer’s Disease Related Disorder patients for *ex vivo* assays and manipulation studies.

Role: Co-I

ACTIVE TRAINING AND CONSORTIUM GRANTS

NIH T32 AG049676-01 (Martire, Almeida) 2015 – Present
Psychosocial determinants and biological pathways to healthy aging
Role: Co-I; Faculty Mentor

NIH T32 HD101390-01 (Noll, Jackson) 05/11/2020 – 04/30/2025
Creating the next generation of scholars in child maltreatment science
Role: Co-I; Faculty Mentor

**Penn State University Science Council
Health Challenge (Sliwinski)** 02/25/2022 – 02/24/2025 \$600,000
The Geroscience and Dementia Prevention Consortium (GDPC)
Role: Co-I; Faculty Member

NIH R25 HL147668-01 (Wray, Kitko) 2019 – 2024
Improving access through research and training (IMPACT)
Role: Co-I; Faculty Mentor
<https://impactprogram.psu.edu/>

GRANTS PENDING REVIEW (Direct costs shown)

NIH R03 AG088758-01 (Witzel) 04/01/2024 – 03/31/2026 \$100,000
Stress and affective mechanisms that relate to inflammation in diverse older men and women
This project extends the Einstein Aging Program Project to examine which aspects of daily stress processes are linked with inflammatory markers, including MIF, and the moderating role of gender.
Role: Consultant
Impact Score 30, Percentile 12 [JIT requested]

NIH NIA K23 (Balthazar) 07/2024 - 06/2029 \$1,345,031
Longitudinal role of sleep and social determinants on neuroinflammation and cognitive health in minoritized vs. non-minoritized participants of the Einstein Aging Study
Role: Consultant (Under revision)
Impact Score 45

PAST GRANT FUNDING (Direct costs shown)

NIH R21 AG066140-01 09/15/2019 – 05/31/2024 NCE \$275,000
(Knight, Engeland)
Sex hormones, inflammation, and cognitive decline in older men and women
This addition to an ongoing longitudinal study examines, across 3 annual data waves, how sex hormones in the elderly (testosterone, estrogen, estrone) relate to inflammation and predict cognitive decline, mild cognitive impairment, and ultimately dementia (e.g., Alzheimer’s disease) in 600 participants 70-90 years of age in the Bronx, NY.

ENGELAND, CG

Role: PI (Multiple)

NIH R03 DK13295951 (Kovacic) 06/01/2022 – 05/31/2024 \$150,000
Brain-gut-genome profiling in connective tissue disorder-related gastrointestinal dysfunction
Pilot study of brain-gut signaling, immune function and transcriptomics in a cohort of adolescents with connective tissue disorders and functional gastrointestinal complaints. Study includes detailed characterization of autonomic function and inflammatory profiles along with gastric motility using a novel gastric MRI protocol.
Role: Consultant

NIH RF1 AG056487-01A1 07/01/2018 – 08/31/2023 \$2,650,961
(Engeland, Graham-Engeland)
Integrative biobehavioral and psychosocial risk for cognitive decline in the elderly
This longitudinal study (4 annual data waves) examines how inflammation, lipid signaling, and neurodegenerative biomarkers predict cognitive decline, mild cognitive impairment, and ultimately dementia (e.g., Alzheimer's disease) in 500 participants 70-90 years of age in the Bronx, NY.
Role: PI (Multiple)

PA Tobacco Settlement Fund (TSF)
Junior Faculty Research Scholar Award: Commonwealth Universal Research Enhancement (CURE) Program (Mukherjee) 06/01/2020 – 06/30/2023 \$200,000
A neurobiological model of anticipatory anhedonia: The association of inflammation and reward circuitry dysfunction in treatment resistant depression
This study examines the unique and interactive associations between measures of inflammation (blood) and reward (fMRI) with anticipatory anhedonia in patients who are non-responsive to antidepressants.
Role: Faculty Mentor / Co-I

NIH R44 AG056250-03A1 (Gartenberg) 06/01/2020 – 05/31/2023 \$2,478,346
A non-pharmacological multi-modal therapy to improve sleep and cognition and reduce mild cognitive impairment risk
The overall objective of this research is to develop a non-pharmacological means to address sleep deficiencies and well-being in older adults.
Role: Co-I

NIH R01 MD011575-01A1 (Giurgescu) 01/06/2017 – 07/31/2022 NCE \$2,498,120
Social stressors and inflammation: A mixed methods approach to preterm birth
This mixed method, longitudinal study will be the first to prospectively examine five interrelated factors (social stressors, personal resources, emotional stress, cortisol, and inflammation) that have been related to preterm birth. The study will be conducted with 1500 African American women.
Role: Co-I (PI at Penn State)

NIH U01 AG062370-01 (Sliwinski) 09/30/2018 – 05/31/2021 NCE \$1,380,573
Elucidating the necessary components and mechanisms of cognitive training (ENACT)
This study will use two forms of cognitive training to examine how cognitive and psychosocial factors account for the transfer of such training to everyday function in adults aged 45-90. Lifestyle behaviors, biomarkers and neural mechanisms (fMRI) will also be explored.
Role: Co-I

NIH UL1 TR002014 Penn State CTSI (Mukherjee) 09/01/2019 – 08/31/2021 NCE \$47,300
Neural, Inflammatory and Behavioral Markers of Anhedonia in Treatment Resistant Depression
This study examines the unique and interactive associations between measures of fMRI, MRI, and inflammation with components of depressed mood (e.g., anhedonia) in patients who are non-responsive to antidepressants.
Role: Co-I

ENGELAND, CG

- Proactive Life Inc. (Buxton)** 04/01/2020 – 05/31/2022 \$482,877
A non-pharmacological multi-modal therapy to improve sleep and cognition and reduce mild cognitive impairment risk
In conjunction with NIH grant AG056250-03A1 (above), the overall objective of this research is to develop a non-pharmacological means to address sleep deficiencies and well-being in older adults.
Role: Co-I
- NIH U01 AG062370-02 (Ross)** 07/15/2019 – 05/31/2020 \$250,000
Elucidating the necessary components and mechanisms of cognitive training
This administrative supplement provides funds for additional blood-based biomarkers to be assessed that pertain to brain health, neurodegeneration, and Alzheimer's Disease. Additional funds will cover mobile plans for cell phones and other related costs.
Role: Co-I
- NIH R01 AG042595-01A1 (Engeland, Graham)** 09/30/2012 – 05/31/2019 \$1,363,648
Inflammatory mediators of stress and cognitive aging
This longitudinal study incorporates blood and saliva sampling and a battery of psychosocial questionnaires (4 annual data waves) into an ongoing prospective study that examines cognitive aging in 320 individuals 25-65 years of age in the Bronx, NY.
Role: PI (Multiple)
- BH Research Initiative Award (Murdock)** 11/05/2018 – 06/30/2019 \$9,185
Cognitive performance and inflammation: Evaluating the role of circulating and stimulated cytokines
This study will provide pilot data on basal and lipopolysaccharide-induced cytokines in ex vivo human blood samples, to examine how cognitive abilities, stress, health behaviors and inflammation relate to metabolic syndrome.
Role: Co-I
- BH Research Initiative Award (Murdock)** 04/20/2018 – 08/31/2018 \$3,400
Cognitive profiles and metabolic syndrome: Bibehavioral mechanisms explaining increased risk and progression
This study will provide pilot data on mitochondrial dysfunction for a future R01 grant application examining how cognitive abilities, stress, health behaviors and critical biomarkers relate to metabolic syndrome.
Role: Co-I
- CTSI Bridges to Translation Award (Engeland)** 11/01/2015 – 06/30/2017 \$45,980
Penn State University – NIH UL1 TR002014
Hyperglycemia and impaired healing in medically complex surgical patients
This clinical pilot study examines hyperglycemia development and surgical outcomes in hernia repair patients, with a focus on lipidomics and proteomics aimed at factors critical for tissue repair that are assessed from blood and directly in the wound site (i.e., wound drainage).
Role: PI
- University of Sydney** 01/01/2015 – 12/31/2016 \$19,541
International Program Development Fund (Edwards)
Healthy aging in a changing climate: Heat wave survival, critical biomarkers and interventions
This pilot project examines the efficacy of lowcost, energy efficient interventions (e.g. electric fans) on mitigating cardiovascular and thermal strain, which lead to a heightened risk of cardiac events in at-risk individuals during heat waves.
Role: Co-I
- Social Science Research Institute – CYFC (Noll)** 03/01/2014 – 02/28/2016 \$43,000
Penn State University
Daily Stress and Premature Cognitive Aging as Long-term Sequelae of Childhood Sexual Abuse
This grant examined resilience in the face of daily stressors and the extent to which daily stressors

ENGELAND, CG

exacerbate the impact of an already-compromised Hypothalamic Pituitary Adrenal (HPA) axis.

Role: Consultant

UIC Midwest Roybal Center 10/01/2014 – 09/30/2015 \$50,000
for Health Promotion and Translation (Ezenwa)

Feasibility of a Stress Reduction Intervention Study in Sickle Cell Disease

This clinical pilot study assessed the effects that stress reduction has on pain perception, cortisol levels and cardiovascular function in patients with sickle cell disease. **Role: Co-I**

Wayne State University (Giurgescu) 04/01/2013 – 03/31/2015 \$5,000
College of Nursing

Social stressors, inflammation, and preterm birth in African American women: A pilot

This study examined the role of social stressors and inflammation on preterm birth for African American women in Detroit.

Role: Co-I

College of Nursing Internal Research (Ezenwa) 02/01/2013-01/31/2014 \$10,000
The Feasibility of a Stress Reduction Intervention Study in Sickle Cell Disease

Pilot study that assessed the effects that a guided imagery intervention has on perceived stress, pain perception, and cortisol levels in patients with sickle cell disease.

Role: Co-I

UIC Campus Research Board (Ezenwa) 01/01/2014-12/31/2014 \$20,000
Feasibility of a Stress Reduction Intervention Study in Sickle Cell Disease

This clinical pilot study assessed the effects that stress reduction has on pain perception, cortisol levels and cardiovascular function in patients with sickle cell disease.

Role: Co-I

Marie Curie Funding Scheme fp7 (Lord) 11/01/2009–10/31/2013 €3,100,000
European Research Council

Neuroendocrine Networks in Aging – Stress, Immunity, and Mental Health

Study aims: 1) to investigate the associations between lifestyle, psychosocial factors, and markers of immunosenescence in pre-senescent adults (18-65 yrs); 2) to investigate the potential mediating roles of neuroendocrine activity and latent viral infection in these associations.

Role: Consultant

Social Science Research Institute (Graham) 10/05/2011–10/04/2013 \$24,748
Penn State University

Inflammatory Mediators of Psychological Stress and Cognitive Aging

This pilot funding enabled sample collection over the first year, and also the analysis of inflammatory biomarkers collected during the first 6 months, in an ongoing longitudinal study of stress and cognitive aging in the Bronx, NY. This ensured that physiological data was not lost prior to R01 funding (see above).

Role: Co-I

Social Science Research Institute (Graham) 08/01/2012–07/31/2013 \$4,940
Penn State University

Validation of Salivary to Blood-based Inflammatory Markers and Associations with Psychosocial and Immune Health Indicators

This pilot study will validate various inflammatory biomarkers in saliva to previously obtained values in blood, and also relate them to tissue inflammation during wound healing.

Role: Co-I

UIC CCTS Pilot Grant 2011 (White-Traut) 08/01/2011–07/31/2013 \$60,000
Pathways to Preterm Birth: Stress, Inflammation, & Cervical Remodelling

This pilot project has provided additional preliminary data to enhance this group's P01 application for

ENGELAND, CG

09/2013 (see above).

Role: Co-I

NIH R01 DE017686-01 (Marucha) 03/01/2008–02/28/2013 \$1,250,000
Stress-Impaired Microbial Clearance

This program will study the effects of stress on the immune system, and the role of oxygen on stress-impaired microbial clearance, during wound healing.

Role: Co-I

NIH R03 NR010608-01 (Giurgescu) 07/01/2008–06/30/2011 \$100,000
Race-related Stressors and Preterm Birth in African-American Women

This program will examine the relations between psychological and physiological stressors, immune responses and the incidence of preterm birth in low income African-American women.

Role: Co-I

UIC Wach Fund (Fischer) 06/01/2009–12/31/2010 \$14,788
Application of Salivary Diagnostics in Patients With and Without Intraoral Lesions

This study will evaluate saliva as a diagnostic tool in assessing oral health in patients near the end of life.

Role: Co-I

NIH R21 DE018161-01 (Engeland) 05/01/2008–04/30/2010 \$275,000
Clinical Corticosteroid Therapy: Impact on Oral Mucosal Wound Healing

This program seeks to determine the effects of corticosteroid administration upon tissue inflammation and the healing of standardized oral mucosal wounds, and to assess the interactive effects of circulating sex and stress hormones on these healing parameters. These results should have a direct impact upon the prevalence of corticosteroid use in dental surgery.

Role: PI

NIH R21 DE018161-02S1 (Engeland) 06/02/2009–04/30/2010 \$8,600

Administrative Supplements Providing Summer Research Experiences

This application will fund two undergraduate research students for the summer to work on my NIH funded R21 grant. It also provides \$2000 for research supplies.

Role: PI

CONFERENCE SYMPOSIA (* Presenter)

Fredman SJ*, Gamaldo AA, Jenkins AIC, Hall-Clark BN, Le Y, Mogle JA, Monson CM, Gamaldo CE, Thorpe RJ, Blount TH, Fina BA, Buxton OM, **Engeland CG**, Rhoades GK, Stanley SM, Macdonald A, Dondanville KA, Taylor DJ, Pruikisma KE, Litz BT, Young-McCaughan S, Yarvis JS, Keane TM, Peterson AL. (2024) An initial examination of couple therapy for PTSD outcomes among Black Americans: Findings from an uncontrolled trial of intensive, multi-couple group treatment of PTSD with military dyads. In Varma S (Chair): *Getting better together: Couple interventions for individual psychopathology*. (Association for Behavioral and Cognitive Therapies, Philadelphia PA)

Rummel C, **Engeland CG**, Bailey M, Antonson A, Ford B, Hansson L. (2024) (Chairs) *Educational Short Course: Diversity in PNI Related Research, Methods, and Career Paths*. (PNIRS, Halifax NS)

Engeland CG. Presidential Symposium. *Diversity in PNI Research*. (2024) Chair, Discussant. (PNIRS, Halifax NS)

Engeland CG*, Wright MA, Tennyson RL, Knight EL, Graham-Engeland JE. (2024) Inflammatory biomarkers in older adults: Stability, correlations, and components. In Reed R (Chair): *Methodological and Measurement Considerations and Innovations in Aging Biomarkers*. (APS, Brighton England)

Van Bogart K*, Witzel D, **Engeland CG**, Graham-Engeland JE. (2023). The role of mild cognitive impairment and marital status on the association between loneliness and intrusive thoughts among older adults in everyday life. In Witzel D (Chair): *Using Intensive Repeated Measurement to Determine the Emotional Consequences of Negative Relationship Experiences*. (GSA, Tampa FL)

Engeland CG* (*Invited speaker*) (2023) The importance of controlling, visualizing, and analyzing influential variables. *Educational Short Course: Understanding and Accounting for Influential Variables in PNI Research*. (PNIRS, Boulder CO)

Engeland CG* (*Invited speaker*) (2022) Pros and cons of performing research at an intersection of multiple disciplines. In Johnson KB (Chair): *Building and Leveraging Community Partnerships that Embrace Diversity, Enrich Discovery, and Reimagine Aging*. Emerging Scholars and Professional Organization (ESPO) Presidential Symposium. (GSA, Indianapolis IN)

Engeland CG* (*Chair*) (2021) *Preventing cognitive aging and dementia*. (Academy of Behavioral Medicine Research [ABMR], Scotts Valley CA)

Graham-Engeland JE*, **Engeland CG**, DeMeo N, VanBogart K. (2021) Negative mood in daily life as a predictor of inflammation: A stress story. In Graham-Engeland JE (Chair): *The interaction between cortisol and the immune system in health and disease*. (Invited plenary session for the International Society of Psychoneuroendocrinology [ISPNE], Virtual Conference)

Engeland CG* (*Discussant*) (2020) In Szabo YZ, Slavish DC (Co-Chairs): *Stress, health, and salivary markers of inflammation: An update and opportunities for future research*. (American Psychosomatic Society [APS], Long Beach CA)

Knight EL*, Majd M, Graham-Engeland JE, Smyth JM, Sliwinski MJ, **Engeland CG**. (2020) Gender differences in the link between depressive symptoms and ex vivo inflammatory responses are associated with markers of endotoxemia. In Juster R-P (Chair): *Gendered adrenals and guts?: Sex and gender roles in relation to cortisol reactivity and microbiome health*. (APS, Long Beach CA)

Engeland CG*, Marucha PT, Gajendrareddy PK. (2018) Stress, inflammation, and mucosal tissue repair. In Broadbent E (Chair): *How stress affects wound healing: Hormones, cytokines, gene expression, and immune cells*. (International Congress of Behavioral Medicine [ICBM], Santiago Chile)

Engeland CG*, Smyth J, Slavish D, Graham JE. (2013) Lessons learned from the bench: Relating

ENGELAND, CG

salivary to blood-based inflammatory markers. In Graham JE (Chair), **Engeland CG**, Smyth J (Co-Chairs): *Beyond salivary cortisol: Salivary biomarkers of immune function and stress at the cutting edge*. (APS, Miami FL)

Engeland CG*, Yang L, Pyter LM, McKenzie C. (2012) Isolation stress: Rethinking the mechanisms of stress-impaired healing. In Walker FR (Chair): *Stress, inflammation, neuroinflammation and behavior: Causes, consequences and treatment*. (International Behavioral Neuroscience Society [IBNS], Kona HI)

FEATURED SPEAKER - NATIONAL

2023: **Cognitive decline and dementia risk in older adults.**

(Seminar Series, Center of Geriatric Nursing Excellence, University Park PA)

2022: **The quest for early detection in Alzheimer's disease: What blood-based biomarkers and cognitive tests might tell us.** (Institute of Gerontology: Research Colloquium and Professional Development Seminar Series, Wayne State University, Detroit MI)

2022: **The utility of blood- and saliva-based biomarkers in biomedical research.**

(Center of Geriatric Nursing Excellence, University Park PA)

2019: **Psychological stress, wound healing, and mucosal immunity.**

(Children's Research Institute, Children's Hospital of Wisconsin, Milwaukee WI)

2018: **Psychological stress and wound healing.** (Psychology Dept., University of Texas, El Paso TX)

2016: **The effects of psychological stress on wound healing and mucosal immunity.**

(Family Medicine Seminar Series, Mount Nittany Medical Center, State College PA)

2015: **Things the oral cavity can tell us about mucosal and systemic immunity.**

(Regenerative Sciences Seminar, Center for Wound Healing, UIC, Chicago IL)

2015: **Stress and inflammation: Interpreting measures from the oral cavity.**

(Institute for Behavioral Medicine Research, Ohio State Wexner Medical Center, Columbus OH)

2015: **Stress and inflammation: What can we learn from wound healing and saliva?**

(Noll Seminar Lecture, PSU, University Park PA)

2015: **Differentiating between types of dementia: What if it's not Alzheimer's?**

(Geriatric Interest Network – Spring Conference, Altoona PA)

2015: **Biodemography of exceptional longevity.**

(22nd Annual Methodology Workshop – Population Research Institute, PSU, University Park PA)

2015: **Mucosal immunology and tissue repair.**

(Risk of Adolescence & Mucosal Injury in HIV Susceptibility, NIH/NIAID Workshop, Rockville MD)

2014: **Influence of stress, inflammation, and gender on surgical wound healing.**

(American Association of Endodontists (AAE) Annual Meeting, Washington DC)

2014: **Stress and wound healing.** (CHHD/CON Seminar Series, PSU, University Park PA)

2013: **Stress, inflammation, and tissue repair.**

(Dept. Microbiology & Immunology, Milton S. Hershey Medical Center, Hershey PA)

2013: **Psychological stress: Effects on inflammation and tissue repair.**

ENGELAND, CG

(Dept. Microbiology & Immunology, Loyola University, Chicago IL)

2013: **Psychological stress & tissue repair.** (Dept. Anatomy & Cell Biology, Rush Hospital, Chicago IL)

2013: **Stress, inflammation and wound healing.** (Wound Healing Center, UIC, Chicago IL)

2012: **Inflammation, stress, and healing.** (Dept. of Physical Therapy, UIC, Chicago IL)

2010: **Factors which modulate mucosal healing.**

(Advances in Cancer Detection & Therapeutics, Seminar Series, Northern IL Univ., DeKalb IL)

2009: **Health disparities in oral mucosal healing.** (Chicago Section of the IADR, Chicago IL)

2009: **Health disparities in oral mucosal healing.** (Behavior & Health Seminar Series, UIC, Chicago IL)

2007: **Oral wound healing: Stress and inflammation.**

(Academy of Behavioral Medicine Research, Park City UT)

2007: **Stress and wound healing.** (Kinesiology & Nutrition, Departmental Series, UIC, Chicago IL)

FEATURED SPEAKER - INTERNATIONAL

2021: **How stress affects tissue repair and immunity in the oral cavity.**

(Department of Periodontics and Oral Medicine, University of Pretoria, Pretoria, South Africa)

2018: **Effects of social isolation on wound healing and immunity in male and female mice.**

(Swiss Laboratory Animal Science Association [SGV], Lausanne Switzerland)

2009: **Stress and mucosal healing.** (Children's Hospital, Dept. of Immunology, Utrecht, Netherlands)

2008: **Stress, age, gender: Modulation of mucosal healing.**

(Universidade Federal do Rio Grande do Sul, School of Dentistry, Porto Alegre, Brazil)

AWARDS AND COMPETITIVE SCHOLARSHIPS (* Canadian dollars)

Name of Award	Value/Year	Type	Location	Held/Awarded
Janet Williamson Award for Excellence in Teaching (Nursing)		Institutional	PSU	04 / 2021
Journal of Midwifery & Women's Health Best Research Article of the Year		International	PSU	05 / 2016
Faculty Scholarship Award (Research)	\$1,000	Institutional	UIC	02 / 2013
PNIRS Research Scholars Award	\$1,000	International	UIC	06 / 2005
PNIRS Research Scholars Award	\$1,000	International	UIC	05 / 2004
1st Place Postdoctoral Research	\$ 150	Institutional	UIC	02 / 2004
IBNS Research Scholars Award	\$1,000	International	UWO	06 / 2002
IBNS Research Scholars Award	\$1,000	International	UWO	04 / 2001
IBNS Research Scholars Award	\$ 500	International	UWO	04 / 2000
Accuscan SFN Research Award	\$ 200	International	UWO	11 / 2001
Accuscan SFN Research Award	\$ 200	International	UWO	11 / 2000
Accuscan SFN Research Award	\$ 200	International	UWO	11 / 1999
Ontario Graduate Scholarship	\$15,000*	Provincial	UWO	2001-2002
(OGS) – plus tuition waver	\$11,859*	Provincial	UWO	2000-2001
	\$11,859*	Provincial	UWO	1999-2000
Ontario Graduate Scholarship in Science and Technology	\$15,000*	Provincial	UWO	2000-2001
(Both declined in place of OGS)	\$15,000*	Provincial	UWO	1999-2000

SUPERVISORY/MENTORING HISTORY (Sections are in chronological order)

Trainee	Institution	Project or Position	Field of Study
<i>Undergraduate Students (Thesis or Independent Study only):</i>			
* Anna Capria	PSU	Schreyer Honors Thesis	Biobehavioral Health
* Marlisha J. Shaw	PSU	Schreyer Honors Thesis	Eberly College of Science
Andrew Franklin	UWO	Undergraduate Thesis	Neuroscience
Julia Flook	UWO	Independent Study	Neuroscience

Sara Little	UWO	Independent Study	Neuroscience
Daniel Nielsen	UWO	Undergraduate Thesis	Neuroscience
Kashif Zaki	UWO	Undergraduate Thesis	Neuroscience
Desmond Cheung	UWO	Undergraduate Thesis	Neuroscience

Graduate Students:

* Tanvi Tomar	PSU	PhD Student	Biobehavioral Health
* Claudette Kessler	PSU	PhD Student	Biobehavioral Health
Leila Mousavi	PSU	PhD student (summer GRA)	Biobehavioral Health
* Angelica Hutchinson	PSU	PhD Student	Biobehavioral Health
+ Zachary Zang	PSU	PhD Student (T32)	Child Maltreatment Science
+ Riki Slayday	PSU	PhD Student (T32)	Center for Healthy Aging
* Molly Wright	PSU	PhD Student (T32)	Biobehavioral Health
* Brooke Mattern ²	PSU	PhD Student	Biobehavioral Health
+ Emily Jones ¹	PSU	PhD Student (F31)	Biobehavioral Health
+ Emily Dove-Medows	Wayne State	PhD Student	Nursing
+ Jinshil Hyun ²	PSU	PhD Student (T32)	Center for Healthy Aging
+ Hyunju Yang ¹	PSU	PhD Student	Nursing
+ Lisa Shank ¹	Wash. DC	PhD Student (F31)	Medicine & Clinical Psychology
* Marzieh Majd ^{2,3}	PSU	PhD Student	Biobehavioral Health
Ritu Sharma	UIC	Master's Thesis	Bioengineering
Lara Regis	UIC	Master's Thesis	Oral Sciences
Antonia Savarese	UIC	PhD rotation	Neuroscience
James Chou	OSU	Master's Thesis	Oral Biology
Sari Anderson	UWO	Independent Study	Neuropsychology
Andrew Franklin	UWO	Master's Thesis	Neuroscience

Medical Students:

+ Liane Hunter ¹	Bronx NY	MD Student (F31)	Medicine (Einstein Med. Coll.)
Jon Friedstat ¹	UIC	James Scholar Research	Medicine (Surgery)
Donnie Rivera ¹	UIC	Independent Study	Dentistry
* Hiba Diab ^{1,2}	UIC	Summer Dental Research	Dentistry
* Houman Ebrahimi	UIC	Summer Dental Research	Dentistry
* Patty Casey	UIC	Summer Dental Research	Dentistry
* Cassandra McKenzie ²	UIC	Summer Dental Research	Dentistry
* Marc Manos ^{1,2}	UIC	Summer Dental Research	Dentistry
Kelley Gyllenhaal ^{1,2}	UIC	Summer Dental Research	Dentistry
* Sara Mahmood	UIC	Summer Dental Research	Dentistry
* Shohreh Raouf ²	UIC	Summer Dental Research	Dentistry

Medical Residents:

* Andrew Monestero	UIC	Master's Thesis	Oral Sciences (Periodontics)
* Logesh	UIC	Master's Thesis	Oral Sciences (Periodontics)
Swayamprakasam ²			
Bahareh Sabzehei ¹	UIC	Master's Thesis	Oral Sciences (Periodontics)
Jeffrey Burke ¹	UIC	Master's Thesis	Oral Sciences (Periodontics)
Tricia Crosby	UIC	Master's Thesis	Oral Sciences (Periodontics)

International Scholars (Visiting Internship):

+ Gustavo Nascimento	UIC	Research Scholar (12 wks)	Dentistry (Brazil)
* Linglan Yang ²	UIC	PhD Research (2 yrs)	Oral Sciences (China)
+ Roger Junges	UIC	Research Scholar (6 wks)	Dentistry (Brazil)
+ Jose M. da Rocha	UIC	PhD Research (1 yr)	Oral Sciences (Brazil)

Post-doctoral Fellows / Research Assistant Professors:

* Brett Messman	PSU	Post-Doctoral Fellow (T32)	Center for Healthy Aging
-----------------	-----	----------------------------	--------------------------

ENGELAND, CG

* Julie Kircher	PSU	Post-Doctoral Fellow	Biobehavioral Health
* Jee Eun Kang	PSU	Post-Doctoral Fellow	Center for Healthy Aging
+ Maria Kurth	PSU	Post-Doctoral Fellow (T32)	Center for Healthy Aging
* Robert Tennyson	PSU	Post-Doctoral Fellow	Biobehavioral Health
+ Dakota Witzel	PSU	Post-Doctoral Fellow (T32)	Center for Healthy Aging
* Erin Harrington ⁴	PSU	Post-Doctoral Fellow	Biobehavioral Health
+ Suzanne Hyer	UCF	Post-Doctoral Fellow (F32)	Nursing, Univ. Central Florida
* Erik Knight ^{1,4}	PSU	Post-Doctoral Fellow (T32)	Center for Healthy Aging
+ Nancy Sin ^{1,5}	PSU	Post-Doctoral Fellow (F32)	Biobehavioral Health
+ Anna Stanhewicz ^{1,4}	PSU	Post-Doctoral Fellow (K99/R00)	Kinesiology
* Leah Pyter ^{2,5}	UIC	Research Assistant Professor	Psychoneuroimmunology

Tenure-track Faculty:

Yvette Szabo	Cal State	Assistant Professor	Psychology
Samuele Zilioli	Wayne State	Assistant Professor	Psychology
+ Dahlia Mukherjee ^{1,2}	PSU	Assistant Professor	Psychiatry (Hershey)
^ Autumn Kujawa ²	PSU	Assistant Professor	Psychiatry (Hershey)
+ Aprile Benner	Austin TX	Assistant Professor	HDFS (Univ. Texas at Austin)

* Primary mentor

+ Secondary mentor

^ Consultant

¹ National/International award recipient (based on mentored research)

² Regional award recipient (based on mentored research)

³ Recipient of the prestigious Penn State Alumni Association Dissertation Award

⁴ Now a tenure-track faculty member

⁵ Now a tenured faculty member

NIH TRAINING PROGRAMS

Faculty Mentor – NIH T32 Training Grant - Child Maltreatment Science	2020 - Present
Faculty Mentor – NIH T32 049676 Training Grant - Center for Healthy Aging	2015 - Present
Faculty Mentor – NIH R25 HL147668 Training Program - College of Nursing	2019 - 2024

GRADUATE EXAMINATION COMMITTEES (* Chair)

Candidacy/Qualifying/Preliminary Examination Committee (PhD):

Claudette Kessler*	PSU - BBH
Caitlin Givens	PSU - BBH
Molly Wright*	PSU - BBH
Lauren Chu	PSU - BBH
Brooke Mattern*	PSU - BBH
Marzieh Majd*	PSU - BBH
Francisco Alejandro Montiel-Ishino	PSU - BBH
Mateusz Wietecha	UIC - Neuroscience
William Kenkel	UIC - Oral Sciences

Comprehensive Examination Committee (PhD):

Lauren (Chu) Petri	PSU - BBH
Caitlin Givens	PSU - BBH
Molly Wright*	PSU - BBH
Haley Guffey	PSU - Integrative/Biomedical Physiology
Samantha Vervoordt	PSU - Clinical Psychology

ENGELAND, CG

Julia Kelliher	PSU - Nutritional Sciences
Brooke Mattern*	PSU - BBH
Kristin Davis	PSU - BBH
Emily Jones	PSU - BBH
Marzieh Majd*	PSU - BBH
Francisco Alejandro Montiel-Ishino	PSU - BBH
Hyunju Yang	PSU - College of Nursing

Dissertation Examination Committee:

Lauren Petri (PhD)	PSU - BBH
Caitlin Givens (PhD)	PSU - BBH
Yo-Jen Liao (PhD)	PSU - College of Nursing
Kristin Davis (PhD)	PSU - BBH
Brooke Mattern (PhD)*	PSU - BBH
Julia Kelliher (PhD)	PSU - Nutritional Sciences
Samantha Vervoordt (MS)	PSU - Neuroscience
Emily Jones (PhD)	PSU - BBH
Marzieh Majd (PhD)*	PSU - BBH
Hyunju Yang (PhD)	PSU - College of Nursing
Andrew Monestero (MS)	UIC - Periodontics
Whitney Dunn-Weiner (MS)	UIC - Periodontics
William Kenkel (PhD)	UIC - Psychology
Logesh Swayamprakasam (MS)*	UIC - Periodontics
Bahareh Sabzehei (MS)	UIC - Periodontics
Lara Regis (MS)	UIC - Periodontics
Tricia Crosby (MS)	UIC - Periodontics
Jeffrey Burke (MS)	UIC - Periodontics

TEACHING (FACULTY MEMBER)

Course Instructor – PSU (* Created course)

Functional and Integrative Neuroscience (BBH 470)	2021
* Neuropathology & Neuroimaging (NURS 597a: Special Topics - Graduate)	2015, 2018, 2021
Neuroanatomical Bases for Disorders of Behavior and Health (BBH 468)	2014, 2015, 2017, 2019, 2023
* Biology of Aging (BBH 597: Special Topics – Graduate)	2018, 2022, 2024
Biobehavioral Aspects of Stress (BBH 432)	2016

Student Mentoring for Course Credit – PSU

Research Project (BBH 494)	2014-2016, 2019-2021
Independent Studies (BBH 496)	2016
Individual Studies - Graduate (NURS 596)	2015

Guest Lecturer – PSU

Professional Development in BBH (BBH 597)	2018-2019, 2021, 2023
Orientation to Graduate Study in BBH (BBH 597)	2017-2021
Biobehavioral Aspects of Aging (BBH 497 005)	2017-2019
Research Integrity & Scholarly Ethics (RISE 597)	2019
Biobehavioral Systems in Health and Development (BBH 503)	2016-2019
Biobehavioral Aspects of Stress (BBH 432)	2016, 2017
Research Colloquium (NURS 590)	2015
Interdisciplinary Integration in Biobehavioral Health (BBH 311)	2014, 2015
Quantitative Methods in Health Research (NURS 586)	2014

ENGELAND, CG

Course Director & Instructor – UIC

Statistics for Oral Sciences (OSCI 441)	2013
Statistics for Dental Residents (OSCI 594)	2009-2012
Introduction to Quantitative Data Analysis (MHPE 494)	2008

Course Director – UIC

Oral Science Seminar Series (OSCI 595)	2012-2013
--	-----------

Course Facilitator – UIC

Small Group Learning [SGL] – Dental Undergraduate Students

Applied Oral & Behavioral Sciences III (DAOB 311)	2013
Applied Oral & Behavioral Sciences II (DAOB 311)	2012
Biomedical & Clinical Sciences IV (DBCS 314)	2012
Biomedical & Clinical Sciences I (DBCS 311)	2011
Applied Oral & Behavioral Sciences I (DAOB 311)	2011

Course Lecturer in Immunology – UIC

2012-2013

Content Expert in Immunology – UIC

2012-2013

Guest Lecturer – UIC

Introduction to Clinical and Translational Science (HON 201)
Topics in Social Epidemiology (EPI 594)
Kinesiology and Nutrition (HN 595)
Stress and Health Outcomes (NUSC 594)
Special Topics in Oral Sciences – Wound Healing (Nerve Damage & Regeneration) (OSCI 594)

OTHER TEACHING ENDEAVORS

Full-day Seminar Lecturer – Institute for Brain Potential (2019–Present)

I have developed a full-day seminar on the mind-body connection in health for this non-profit organization. I present this 2-4 times per year around the country to a variety of medical/health professionals, who earn Continuing Education (CE) credits for attendance.

Teaching Assistant – University of Western Ontario, London, Ontario, Canada (1997–2002)

Taught practical components of undergraduate courses:

- Globalization (Business School)
- Research Methods & Design (Psychology)
- Animal Behavior Laboratory & Techniques (Psychology)

High School Teacher – Psychology (1994–1996)

Continuing Education Centre, Philemon Wright High School, Hull, Quebec, Canada

OTHER RESEARCH ENDEAVORS

National Alzheimer's Buddies (NAB) at Penn State

Faculty Advisor (2024 – Present)

Judge – PSU

Founder's Endowment for Excellence and Innovation Research Day, BBH (2022)

Judge – UIC

Clinic and Research Day, College of Dentistry (2010, 2012, 2013)

Panelist/Discussant – UIC

ENGELAND, CG

- UIC Postdoctoral Association Career Development (2013)
- 1st Annual Meeting of the American College of Wound Healing and Tissue Repair (2011)
- Center for Clinical and Translational Sciences Intensive Summer Program.
Overcoming the Pitfalls of Clinical Research: Critical Factors for Success (2008, 2009, 2011, 2012)

Faculty Mentoring Training Program – UIC (Completed in 2010)

Research Assistant

In the animal laboratory of Case Vanderwolf, Ph.D. (Neuroscience)
University of Western Ontario, London, Ontario, Canada (1996–1997)

Research Assistant

In the clinical office of Mark Ferland, Ph.D. (Clinical Neuropsychology)
St. Vincent's Hospital, Department of Psychology, Ottawa, Ontario, Canada (1994–1996)
