Voice/TDD  
Department: 814-865-3584  
Fax: 814-863-3759

## **Pediatric Case History Information**

The Cost of the initial speech and language assessment is \$75.00 which includes the assessment, the discussion of assessment results and recommendations, and a written report. Payment should be discussed with the Clinical Administrative Support Assistant prior to your appointment, but generally will be due on the day of the assessment. The PSU clinic does bill a few (but not all) insurance companies. For those clients who are insured through companies we do not directly bill, you will be provided with a copy of the billing information which will include the fee paid, the diagnosis and the code for that diagnosis. If you wish to pursue reimbursement, you can then submit the claim to your insurance company directly.

The Penn State Speech and Hearing Clinic is not a Medicaid/Medical Assistance provider. Therefore, we are not able to accept referrals that are affiliated with any Medical Assistance plans. If you plan to schedule the assessment, you will be responsible for payment the day of the assessment.

*For clients covered by Geisinger Health Plan (GHP): Prior to the assessment you will need to ask your physician for a referral letter and prescription for a speech/language evaluation. The referral letter, prescription, and insurance card must be provided to the Clinical Administrative Support Assistant at the Penn State Speech, Language, and Hearing Clinic at least two weeks prior to the assessment to insure authorization of the services by GHP. You may fax this documentation to 814-863-3759, or deliver the documents to 110 Ford Building, University Park, PA 16802. The clinic will bill GHP directly. It is likely that your GHP policy will require a co-pay payment. This co-pay will be collected at the time of the assessment.*

In preparation for your speech-language evaluation, please answer the questions on the attached Case History form, and return this form to the Penn State Speech and Hearing Clinic at 110 Ford Building, University Park, PA 16802 or fax to 814-863-3759. The information you provide on this form is confidential and will aid us in planning a thorough evaluation.

**Prenatal (pregnancy), Birth, and Development**

**1. Prenatal**

Mother's age when child was born \_\_\_\_\_ Father's age when child was born \_\_\_\_\_ Length of pregnancy in weeks \_\_\_\_\_  
 Birth weight \_\_\_\_\_ One minute Apgar \_\_\_\_\_ Five minute Apgar \_\_\_\_\_  
 How long was the infant's stay in the hospital following birth? \_\_\_\_\_

Yes	No	<i>If any questions are answered "yes", please provide additional information below.</i>
		Did the mother experience bleeding during pregnancy?
		Did the mother have measles during pregnancy?
		Did the mother have high blood pressure during pregnancy?
		Did the mother experience leakage of membranes during pregnancy?
		Were there complications (e.g., anemia, dehydration, diabetes, kidney infection, severe nausea, toxemia, accidents, etc.) during this pregnancy?
		Were prescription/non-prescription drugs (including alcohol) taken during pregnancy?

**2. Birth**

Yes	No	<i>Other than the 1<sup>st</sup> question, if any questions are answered "yes", please provide additional information below.</i>
		Did the mother have a vaginal delivery with this child?
		Did the mother have a breech delivery?
		Did the mother have a Caesarean Section delivery?
		Were there birth injuries?
		Were there breathing difficulties (e.g., blue baby, required oxygen, stopped breathing, apnea, other _____)
		Were special instruments used during delivery?
		Was the baby jaundiced at birth?
		Was there Rh incompatibility?
		Were there any problems or complications following birth or during the first two weeks of your infant's life (feeding, seizures, sleeping, swallowing, hospitalizations, etc.)?

**3. Development (give age when first occurred)**

Age	Motor Skill	Age	Motor Skill
	Held head up		Fed self with spoon
	Sat up unsupported		Bladder Trained
	Reached for object		Bowel trained
	Crawled		Dressed Self

	Stood alone		Undressed Self
	Walked alone		

What motor &/or self-help development concerns do you have for this child? \_\_\_\_\_

Would you describe your child's coordination as: \_\_\_\_ good \_\_\_\_ fair \_\_\_\_ poor

Explain: \_\_\_\_\_

**Child’s Communication Skills**

Speech Production: Check and provide examples / descriptions where applicable

	Sounds are not produced at all (e.g., “look” is pronounced as “ook”)
	Sounds are substituted for with other sounds (e.g., “cat” is pronounced as “tat”)
	Sounds are not produced clearly (e.g., “s” sounds slushy)

Expressive Language: Check and provide examples descriptions where applicable

Yes	No	<i>If any questions are answered “yes”, please provide additional information.</i>
		Are languages other than English (including sign language) used at home?
		Did the child begin to babble or talk and then stop?
		Child is not talking, but may be using gestures.
		Child is only saying a few words.
		Child is talking, but only puts a few words together at a time.
		Child is talking, but there are errors in grammar.

1. Please indicate all means of communication currently used:

- |  |  |   |
|--|--|---|
| <input type="checkbox"/> Speech                            | <input type="checkbox"/> Vocalizations     | <input type="checkbox"/> Bodily Gestures      |
| <input type="checkbox"/> Facial Gestures                   | <input type="checkbox"/> Gestural (yes/no) | <input type="checkbox"/> Takes person to item |
| <input type="checkbox"/> Spoken (yes/no)                   | <input type="checkbox"/> Manual Signs      | <input type="checkbox"/> Pointing             |
| <input type="checkbox"/> Augmentative Communication Device |  |   |

List any adaptive equipment currently used and describe your child’s ability to communicate with the device:

\_\_\_\_\_  
 \_\_\_\_\_

2. At what age did your child say his/her first word? \_\_\_\_\_  
 What were the child's first few words?  
 \_\_\_\_\_

3. Approximately how many words did the child have at  
 18 months? \_\_\_\_\_ 24 months? \_\_\_\_\_

4. At what age did the child say his/her first sentence? \_\_\_\_\_  
 Please give some examples of first sentences:  
 \_\_\_\_\_ Please give some examples of phrases/  
 sentences your child typically uses now: \_\_\_\_\_  
 \_\_\_\_\_

5. How often does your child use speech? \_\_\_ Frequently \_\_\_ Sometimes \_\_\_ Rarely

6. How does your child make his/her needs known? \_\_\_\_\_

7. Does the child use gestures often? \_\_\_ yes \_\_\_ no if so, give an example \_\_\_\_\_  
 \_\_\_\_\_

8. What does the child use the most?  
 \_\_\_ Gestures \_\_\_ Sounds \_\_\_ One or two words \_\_\_ Phrases \_\_\_ Complete sentences

9. Estimate the percentage of time that the child is understood by:  
 \_\_\_ Unfamiliar listeners \_\_\_ Parents \_\_\_ Other adults \_\_\_ Brothers and Sisters \_\_\_ Friends

Receptive Language: Check and provide examples descriptions where applicable

11. How well does the child understand what is said to him/her? \_\_\_\_\_

	Understands gestures
	Does not understand spoken words
	Understands single words
	Understands simple sentences
	Understands / follows 1 step directions
	Understands / follows 2 step directions
	Understands / follows 3 step directions
	Understands conversation

Voice: Check and provide examples descriptions where applicable

	Voice sounds consistently hoarse
	Voice sounds like child has a cold
	Voice sounds like child is talking through his / her nose

Fluency: Check and provide examples descriptions where applicable

	Child repeats sounds or words when talking
	Child has trouble getting the sentence started
	Child has changes in pitch when having trouble talking
	Child shows signs of awareness of his/her difficulty talking
	Child has tension, facial grimaces, etc.

Do you think the child is aware of his/her communication difference? \_\_\_ yes \_\_\_ no

If yes, please describe how the child shows awareness. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Provide any other information about your child's communication that is of concern to you.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

What have immediate family and/or relatives done to help the child overcome his/her communication difficulty?

\_\_\_\_\_  
\_\_\_\_\_

Has this helped? \_\_\_\_\_

What do you think caused this communication difference? \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

Please provide any additional information you feel will help us in understanding the child and his/her present communication ability. \_\_\_\_\_

\_\_\_\_\_
