Department of Nutritional Sciences
Fall 2020 Graduate Program Colloquium Series

Mondays 4:00–5:00 PM
Zoom Meeting ID: 938 4330 8627
Password: 589079

SEP 14
The effect of acute and chronic spice consumption on inflammatory responses in overweight or obese adults at risk for cardiovascular disease
Ester Oh, PhD Candidate
Advisor: Connie Rogers, PhD

SEP 21
The weight of work: An investigation of the relationship between employment and overweight
Vanessa M. Oddo, PhD, MPH
Assistant Professor, Department of Kinesiology and Nutrition, University of Illinois Chicago

SEP 28
Low-cost sensing technologies to monitor micronutrients in fortified foods
Juan E. Andrade, PhD
Associate Professor of Global Nutrition, Department of Food Science and Human Nutrition, University of Florida

OCT 05
Impact of whole egg consumption on the obese phenotype
Kevin Schalinske, PhD
Professor, Department of Food Science and Human Nutrition, Iowa State University

OCT 12
Ruth Pike Lecture:
Vitamin A status and the use of nuclear techniques
Veronica Lopez-Teros, DSc
Research Professor, University of Sonora

OCT 19
Promoting healthier eating among children in restaurants using evidence-based approaches from the behavioral sciences
Stephanie Anzman-Frasca, PhD
Assistant Professor of Pediatrics, University at Buffalo

OCT 26
From policy to practice: Promoting healthy beverages in early childhood
Caree J. Cotwright, PhD, RDN, LD
Assistant Professor, Foods and Nutrition, College of Family and Consumer Sciences, University of Georgia

OCT 28
Modern stressors of the host—microbiota relationship
Benoit Chassaing, PhD, HDR
Team leader, Mucosal microbiota in chronic inflammatory diseases, INSERM U1016, Paris, France

OCT 30
Oxylipins and their complex metabolites as key regulators of blood clotting and innate immunity
Valerie O’Donnell, PhD
Director, Division of Infection and Immunity & Co-Director of Systems Immunity Research Institute, Cardiff University, Cardiff, UK

OCT 31
Addressing pediatric iron deficiency in areas where infection is common
Sarah Cusick, PhD
Assistant Professor Department of Pediatrics, University of Minnesota

NOV 02
How vitamins and sex influence the immune response toward pathogens and vaccines
Julia L. Hurwitz, PhD
Infectious Diseases Department, St. Jude Children’s Research Hospital, TN

NOV 09
Low-cost sensing technologies to monitor micronutrients in fortified foods
Juan E. Andrade, PhD
Associate Professor of Global Nutrition, Department of Food Science and Human Nutrition, University of Florida

NOV 16
Assessing feeding and eating in diverse populations with diverse methods
Charissa Cheah, PhD
Professor, Department of Psychology, University of Maryland Baltimore County

NOV 30
Ruth Pike Lecture:
Vitamin A status and the use of nuclear techniques
Veronica Lopez-Teros, DSc
Research Professor, University of Sonora

DEC 07
Impact of whole egg consumption on the obese phenotype
Kevin Schalinske, PhD
Professor, Department of Food Science and Human Nutrition, Iowa State University

DEC 07
From policy to practice: Promoting healthy beverages in early childhood
Caree J. Cotwright, PhD, RDN, LD
Assistant Professor, Foods and Nutrition, College of Family and Consumer Sciences, University of Georgia
